Flamia & Jabz: Premium Pet Grooming Carding Knives

Premium Pet Grooming Carding Knives Our versatile collection of Carding Knives is designed to cater to every grooming need. Available in five distinct types, with an optional set featuring Cross Teeth, these knives ensure precision, ease, and exceptional grooming results for all coat types.

1. Double Teeth Carding Knife:

Ideal for versatile grooming, this knife combines fine and coarse teeth to handle different coat types. The double teeth design is perfect for removing loose fur and debris while leaving the coat smooth and tangle-free. A must-have for pet owners and professional groomers alike.

2. Coarse Carding Knife:

Designed for heavy-duty grooming, the Coarse Carding Knife is ideal for thick or dense fur. Its widely spaced teeth efficiently remove large tangles and mats, preparing the coat for finer detailing. Perfect for breeds with heavy undercoats.

3. Medium Carding Knife:

The Medium Carding Knife balances precision and efficiency, making it suitable for medium-textured coats. It's excellent for regular grooming sessions, ensuring pets look their best while reducing shedding and maintaining a healthy coat.

4. Fine Carding Knife

This knife is crafted for detailed grooming and is perfect for pets with soft or thin coats. The fine teeth gently remove loose hair, leaving the coat smooth and shiny without causing any irritation to your pet's sensitive skin.

5. Extra Fine Carding Knife:

When precision matters, the Extra Fine Carding Knife delivers. It is ideal for show grooming or pets with silky, delicate fur. The extra fine teeth ensure a flawless finish while gently addressing the finest tangles and shedding.

Optional Cross Teeth Set:

Flamia & Jabz also offers a specialized Cross Teeth Carding Knife Set, featuring enhanced grip and cutting performance. The crisscross pattern allows for superior control, making it ideal for professional groomers dealing with challenging coat textures.
